

BT needle-work and valuable embroideries are frequently ruined, for their beauty much impaired by washing them with ordinary soap, which is too rank for such delicate articles. A simple, and the proper method is to make suds of hot water and IVORY SOAP, and allow to cool till lukewarm. This solution, while very effective, is perfectly harmless.

A WORD OF WARNING.

There are many white soaps, each represented to be "just as good as the 'lvory';" they ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and insist upon getting it.

Newspaper Criticism.

the symptoms of diseased kidneys

Prof. O. M. Mitchel, the astronomer, gave it in a locture delivered in 1859: With what velocity does the electric current flash along the wire? I secured a telegraphic communication of wire entirely around from Cincinanti to Pittsburgh and back again, in order to determine whether electric magnetism accomplished the circuit of 607 miles of wire instantaneously, or whether it took some time. My disc was prepared and the clock beats were being received upon it. ceived upon it. I arranged in such a manner that two pens should record upop a metalic disc by steel shortest notice bring it to this office. year by taking the Kentuckian.

Tjopkinsville Kentuckian.

points, by the most delicate dots imaginable, the time for the passage of the electric current. Then I prepared inside the observatory (at Cincinuati), a short circuit of six or eight feet of wire, and to that battery I gave the identical intensity which be-

cuit. I then arranged in such a man-ner that I could interchange these two points with each other, making one love with the long circuit and the other with the short, at pleasure. Hav-It is a privilege every newspaper reserves to itself to criticise, adversely if needs be, for the public's benefit, anything in which the public is deeply interested.

It is the custom of H. H. Warner in the same moment of time, or whether an interval would exist which ing arranged the whole apparatus, I

above.—Thompson.
Fifth—Unly when the discase has

organs.—Thompson.
Sixth—Bright's Disease, which usually has three stages of development, is a unityresal disease in England and America.—Roberts and Edwards.
Thompson is authority for saying that more adults are carried off in the local took through the Ophir and that more adults are carried off in the Monday and was amazed.

Wignas City.

"Strange growths are also to be seen give him a sent on the rail. The procession will then move off, and all join in the triumph. The local talent may been closed, and were only opened the other day.

"I took a look through the Ophir and the lines:

"I took a look through the Ophir and Goesta, and especially those carrying." this country by kidney disease than any other malady except consumption. Under Warner's "Safe Cure" at the following to be a quotation from a publication issued by Brompton Hospital for Consumptives, London, England, which states that 52 per cent. of the patients of that institution have unsuspected kidney disorder. Dr. Herman Brehmer, and there are the feet white outlines of strange beings. At a warm state the god-like victor sate, duests, and especially those carrying the rail, should be instructed to pay no heed to the polite, but merely formal invitations of the host to take a rest. A coat of tar and feathers will prevent your partner from taking cold by his rapid movement through the air.

A second form of the rail method is stretched here and there among and the feathers will be feather the god-like victor sate, and especially those carrying the rail, should be instructed to pay no heed to the polite, but merely formal invitations of the host to take a rest. A coat of tar and feathers will prevent your partner from taking cold by his rapid movement through the air.

A second form of the rail method is said to be fully as good as the first. order. Dr. Herman Brehmer, an Stretched here and there appeared eminent German authority also says sheeted ghosts, and fungl in the form that Consumption is always due to deficient nutrition of the lungs, because of bad blood. The lungs of owns and of goats with long white directions below, and you will find that you have a genuine home luxury, and at a trilling expense.

HOUSEHOLD RECIPES.

It is the enstom of H. H. Warner & Co., proprietors of the renowned kidney and Liver Cure, better known as "Warner's Safe Cure," to flood the country, and especially the post-offices, with medical pamphlets. The writer has taken the fiberty to examine one of these marvelous little books, and finds food for criticism, but before indulging in it, will give our readers some quouations therefrom, from the highest medical anthorities, which we believe worthy of consideration. Under the head of "No Distinctive Symptoms Apparent," we find:

First—More adults are carried off in this country by chronic kidney disease than by any other one malady excepteonsumption.—Thompson. Second—Deaths from such diseases are increasing at the rate of 250 per cent. a decade.—Edwards.

Third—Bright's Disease has no symptoms of its own, and may long exist without the knowledge of the patient or practitioner, as no pain will be felt in the kidneys or their yielinity.—Roberts.

Fourth—In the fatal cases—and Fourth—In the fatal cases—and that journey took 21 of those parts—in 21.1,000th of one second in session into a Reliable Individual.

HOUSEHOLD RECIPES.

How to Convert a Grambling Hushand into a Reliable Individual.

While showing the poer but with the econer of the disc. but when the pens fell it wanted a keener and sharper count he country how to exercise their marvelous finesse on boxes and barrels, on salt mackerel to discove and barrels, on salt mackerel to examine or realisting the content of the close of the circuit when the pens fell it wanted a keener and sharper car than mine to detect.

But Whele shawing the poer of the disc of the content of the dots struck with the whold scower and barrels, on salt mackerel to boxes and barrels, on salt mackerel to examine the content of the center of the disc. It was compeled to restrain my curiosity until the night should pass and the daylight come again. Then, with an

vicinity.—Roberts.
Fourth—In the fatal cases—and most cases have hitherto been fatal—

The control of the cases have hitherto been fatal—

The control of the cases have hither to be a fatal—

The control of the cases have hither to be a fatal—

The control of the cases have hither to be a fatal—

The control of the cases have hither to be a fatal—

The control of the cases—and the kindness in these emergencies than may be supposed. Bely on your neighthe symptoms of diseased stuneys will first appear in extremely different organs of the body as stated They Lift Immense Stones to a Height of the gentlemen to step forward, and they are number of them at each end of Three Feet.

"Queer growths of fungi are to be reached its final and fatal stages may the usual symptoms of albumen and tube casts appear in the water, and will great pain rack the diseased organs.—Thompson.

"Three Feet.

"Queer growths of fungi are to be seen now on the old workings of the mail blrect them to lift on the rail, giving it a graceful wave motion. As a mark of respect, appoint your husband master of ceremones, and of Virginia City. Virginia City.

Strange growths are also to be seen give him a scat on the rail. The pro-

deficient nutrition of the lungs, because of bad blood.

Medical science can no longer dispute the fact that the kidneys are the principal blood purifying organs of the human system, and if they are diseased and thus fail to expel the nric acid poison or the waste matter of the blood, of the blood passes through these two great organs, the "Safe Cure" claim is correct, and the reasoning of its proprietor holds good. There is no doubt but that in too many instances the medical fraternity doctor for symptoms, instead of striking at the root of the disease, and that under this form of treatment insury patients die.

We cannot, however, see the necessity of continually flooding the country with these advertising medical to of the human hair, other kinds are found try with these advertising medical to of the human hair, other kinds are found try with these advertising medical to of the human hair, other kinds are found try with these advertising medical to of the human hair, other kinds are found try with these advertising medical to of the human hair, other kinds are found try with these advertising medical to of the human hair, other kinds are found try with these advertising medical to of the human hair, other kinds are found try with these advertising medical to of the human hair, other kinds are found try with these advertising medical to of the human hair, other kinds are found try with these advertising medical to of the fund almost completely closed some \$4\$ the drifts. It grew bottom and the top, and the tothe, and at trilling expense.

Secure your rail, a heavy one. Attach the chain to the leg of the husband that you bave a genuine home luxury, and at a trilling expense.

Louis at trilling expense.

Coal Oli -Secure your rail, a heavy one. Attach the chain to the leg of the husband. This should be done while he luxury, and at a trilling expense.

Coal Oli -Sec

We cannot, however, see the necessity of continually flooding the country with these advertising medical books, when their story once well told is enough for the time being. Poople as a rule, now-a days, go to their newspaper for information, and we believe such truths as we have instanced could be proclaimed therein more advantageously to the public and much more beneficially to the proprietors.

ELECTRIC CURRENTS.

The Velocity with Whiteh Electricity Fisahes Along a Wire.

The question has been asked how rapidly does the electrical current travel. Although we have the information called for in some of our encyclopacities, we prefer for the present purpose to give it as follows, as Prof. O. M. Mitchel, the astronomes, gave it is a locture delivered in 1859: With what velocity does the electricity With what velocity does the electricity With what velocity does the electricity With the signal and the word of the times of makes of the times of such as a kind of bulbous being and resemble tools as a rule, now-adays, go to their many as a real to the fire. There is always a reduct the worst men and she will then be evening firesside, the loose and of the rail may be utilized to tack in the fire. There is always a reduct the worst men and bad as you may think your husband, and as much worse as he really a your may trust him not to let the rail burn too far. Watching the rate of the rail may be utilized to tack in the fire. There is always a reduct the worst men and bad as you may think your husband, and as much worse as he really a your may trust him not to let the rail burn too far. Watching the rail burn too far. A little attention to these rules will be and inexpensive divertisement for the long winter evenings.

A little attention to these rules will be seen asked how and the evening firessi

STORIES OF TENNYSON.

The Port Laurente's Well-Developed Bi Lord Tennyson's dislike of publicity

is well known, and many curious take -Fogg says that some of the people on the theatrical stage remind him of his liver, because they don't act worth a cent.

-New York Girl—"Why do you dislike 'Macbeth.' Miss Lakeside?" Chicago Girl—"Because tragedy seems so commonplace to me, You know my papa has a slaughter-house."

-She—"It may be I have yellow fever, Henry: I think we had botter send for Dr. Pillsburg." He—"Why, my love, I wouldn't send for him. You know he is color-blind."—Life. In order to get a look at the poet lau-rente. On one occasion, when at my love, I wouldn't send for him. You know he is color-blind."—Life.

—"What kind of stories do baldheaded men prefer?" asked McSwilligen. "Don't know; I'm not bald." replied Squildig. "What kind?" "Hairraising stories, of course."—Pittsburgh

Chemicle Telegraph.

Amurilea. Another good tale is told in connec-tion with the Prince of Wales. Lord -then Mr. Alfred-Tennyson on on occasion, while walking in his grounds was informed that some enterprising tourist was looking down on him from a tree almost over his head. The enhis coign of vantage. The laurente benefit for \$60,000." "He has? Well, however, secured a page boy to keep now, my daughter, there is no longer of all such intruders in future, he heany objection to your making him that angel cake you have been talking Soon after this youth had commenced out."—Texas Siftings.

—Jinks—"I madea but with Miss de of Wales walked over from Osborne to Pink last night." Blinks—"Gloves against a meditle, I suppose?" "Y-es. How did you know?" "Oh, women always bet that way II they win, they "And what's that to you, if he is?" "Tell him, said H. R. H., "that the Prince of Wales wishes to see him." The knowing youth wherewith, not to be caught, said: "You don't take me to be so green as that?" and to emphasize his remark be "placed his finger to his nose and spread his fingers out." The Prince, however, had parleyed sufficiently, so taking the young hope-ful by the collar he placed him aside, and walked into the house.—London
